NORTH CAROLINA SENATOR. The failure of the Legislature to elect a Senator is ican boundary commission. not so important a matter as some suppose. The

Constitution of North Carolina makes provision for ulingency in the 20th Section, as follows: " Sec. 20. That in every case where any officer, the right of whose appointment is, by this Constitotion, vested in the General Assembly, shall, during their recess, die, or his office by other means become vacant, the Governor shall have power, with the advice of the Council of State, to fill up such vacancy, by granting a temporary commission, which shall expire at the end of the next session of the General Assembly."

The vacancy will not occur till after the 4th of March, and the appointing power is as clearly with the Governor and Council, as any duty connected with their offices. Even if the vacancy existed during the session of the Legislature, and that body filled to elect, the Governor and Council might still appoint, as the failure of the Legislature would be classed among those "other means" by which the office of Senator became vacant.

h is true that the right of electing Senator is not, in so many words, given by the Constitution to the General Assembly, yet the 37th section gives the power of electing Delegates to the Continental Congress to that body, subject to future legislation-and is no forced construction, we think, to give the power of an office created by the Federal Constitution, who is a Delegate from the State. If there is my objection to the Constitution it must arise on a play of words, and not on the generally accepted meaning of law.

We dare say the Governor and Council will make quite as good an appointment as the Legislature would have done—and the Senator will hold his office for two years, unless the Legislature should meet before the regular time in special session, which is not probable. Wilmington Commercial.

FAVETTEVILLE AND CENTRAL ROAD. Fifteen miles of this Road have been completed, and 20 miles more put under contract, reaching to Blue's Bridge in Richmond county. The Company is making every effort to have this Road extended to Concord, in Cabarrus county. Great hopes were entertained of aid from the late Legislature, but the effort failed. If any assistance was due to any section of our State, it was to this. The Pedes country has never heretofore asked or received any thing from the State, and we think something was due it. The contract to Blue's Bridge will be vigorously pressed, and by January, 1854, that much, if no more, will be completed. Under a charter grant d at the late session of the General Assembly, a preliminary survey has been made for a plank Road from Kingsbury (a point on the Fayetteville & Raleigh Plank Road, 11 miles from Fayetteville,) to Locksville o Deep River, a point bout 2 miles above Hay wood. This road will run brough a pine country, admirably adapted to the profuction of turpentine for a distance of twenty odd miles, and it is confidently anticipated by its friends that when completed it will pay very handaome divi-dends. A large portion of the trade of Chatham, Alamance, Guiford, and the counties lying north of these, will pass over this Road. Its extension to Greensborough is contemplated, and a charter has been granted for the purpose, if this project is carried out, it will greatly add to the amount of travel over the Road. A still further extension north, into the tobacco country, would afford a strong prospect to Fayetteville regaining the tobacco trade (now diverted to Petersburg, Va.,) which in former times was a very extensive and important business to Fayetteville. If the scheme of opening the Cape Fear and Deep Rivers above Fayetteville should prove successful, the Kingsbury and Loeksville Road will become doubly important to this town as a means of keeping a large trade which might, without this me-

diam of transportation, seek a market higher up the The estimated length of this road is 35 miles, and the estimated cost \$45,000.

Mr. Holden: It was with unfeigned regret we heard that Free Suffrage had been deleated, and our regret was greatly enhanced when we learned by whom. For to Weldon N. Edwards must be attributed the defeat of this great measure. The question of Free Suffrage has been thoroughly discussed throughout the State; and it is evident to every one that an overwhelming majority of the people are in favor of it-nay, they have demanded it, again and

again at the ballot box. The three-fiths vote of the Assembly required by the Constitution has been obtained; the expense of advertising has been incurred; it had again received the concurrence of two-thirds of the House, and we The Speaker stated that there was only niety-seven ists between the free white men of North Carolina would soon be "numbered among the things that were. The Executive having conceded to Congress the rivilege of deciding upon the several Tehuantepec one-itions recently submitted, that body proceeded to vote upon the propositions before them, and upon the vote being counted, the contract was declared to be awarded to Guanajust & Co., a company which has generally been supposed to have stood but a poor change of success. The decision therefore created ne little excitement.

From Sonoro we learn that some further engagenents had taken, place between the Mexican troops and Count Raussett, the leader of the French expedition in that State, which resulted in the defeat of the latter, and the surrender of the entire expedition of the Mexican forces.
